COMMANDER, U.S. FLEET CYBER COMMAND
COMMANDER, U.S. TENTH FLEET

takes pleasure in commending

CRYPTOLOGIC TECHNICIAN (INTERPRETIVE) SECOND CLASS
MEGAN C. RODGERS
UNITED STATES NAVY

For services set forth in the following

CITATION

For extraordinary achievement on each of the three most recent Defense Language Proficiency Tests in the Hebrew language during the three year period ending 10 November 2016. Petty Officer Rodgers demonstrated an outstanding level of proficiency that placed her in the top of the tested population. This outstanding achievement attests to her exceptional personal commitment and reflected her uncommon dedication to accomplishing the U.S. Navy's Information Warfare mission. As the technologies of modern warfare become increasingly complex, superior linguists become even more essential to the operational readiness of our U.S. Navy. Having repeatedly proven to be a superior linguist, she can be justifiably proud of the important contribution she has made to our nation's defense. Petty Officer Rodgers' self-discipline and strong sense of duty reflected credit upon her, U.S. TENTH Fleet and the United States Navy. "Congratulations!"

M. M. GILDAY
Vice Admiral, U.S. Navy
